PROFESSIONAL SUMMARY

Computer Science (AI & ML) undergraduate with a CGPA of 8.9, seeking Software Developer, Data Analyst, AI/ML, and Data Science roles. Experienced in building and deploying full-stack web applications using Node.js, React.js, SQL, and MongoDB, with hands-on exposure to Python, machine learning, and data analytics through internships and hackathons. Quick learner with strong team collaboration and leadership skills, focused on building data-driven, production-ready solutions.

EDUCATION

B.E. Computer Science and Engineering (AI & ML), 3rd Year *CGPA: 8.9*
Dr. Mahalingam College of Engineering and Technology

Higher Secondary (12th) - State Board *92.3%*
Kandasamy Matric Higher Secondary School

Secondary (10th) - State Board *96.7%*
Kandasamy Matric Higher Secondary School

TECHNICAL SKILLS

Programming Languages: C, Java, Python
Web and Database: HTML, CSS, SQL, DBMS
Data and ML: NumPy, Pandas, Machine Learning
Tools: Git, GitHub, Vercel
Soft Skills: Quick Learner, Adaptability, Team Collaboration, Team Leadership

INTERNSHIPS

Data Analytics with AI Intern | AICTE - BharatCares *3 Months | Online*
- Worked on data analytics, data interpretation, and analytical techniques.
- Applied AI and machine learning concepts to analyze data and derive insights.
- Built Python and machine learning projects as part of the internship.

Full Stack Developer Intern | TN RISE Skills *1 Month | Online*
- Built web applications covering frontend and backend development.
- Applied full-stack development practices to develop and test application features.
- Strengthened understanding of web application architecture and workflows.

Full Stack Web Development Intern | NxtLogic Software Solutions *15 Days | Offline*
- Learned frontend and backend fundamentals of full-stack web development.
- Gained practical experience in building web application components.
- Worked in a team following real-world software development practices.

PROJECTS

SmartRecover - AI-Assisted Revenue Recovery Platform *github.com/dharshana2806/AI-Revenue-Recovery | Vercel*
Tech: Node.js, Express.js, MongoDB, JavaScript, Razorpay APIs, LLM Integration
- Developed a platform to manage failed payments and overdue B2B invoices using Razorpay APIs and LLM integration.
- Implemented payment verification, webhook idempotency, bounded settlement recommendations, and audit logging.
- Built a dashboard to track recovery metrics and deployed the application on Vercel.

BusinessOS - AI-Powered Business Management Platform *github.com/dharshana2806/BusinessOS | Vercel*
Tech: React.js, JavaScript, SQL, REST APIs
- Developed a centralized platform to manage business information, operations, and workflows.
- Designed the user interface and business workflow modules using React.js.
- Used SQL for data management and APIs for communication between components; deployed on Vercel.

MindCare - Mental Health Care Platform *github.com/dharshana2806/Health-care-app | Vercel*
Tech: Node.js, Express.js, MongoDB, JavaScript
- Developed a platform with separate patient, doctor, and admin modules, including appointment and tele-counselling features.
- Implemented mood tracking and sentiment analysis to support mental wellness insights.
- Integrated MongoDB for data storage and deployed the application on Vercel.

HACKATHONS

- Razorpay AI Buildathon 2026 - Participant | Track: AI Revenue Recovery | Built SmartRecover
- Smart India Hackathon (SIH) 2026 - Participant | Department-Level Presentation | PS 26009 (MOIL) | MANGAN-AI (AI mining decision-support platform) | Team Innovex
- MSME Hackathon - Participant | Aerosense AI

CERTIFICATIONS

Business Ethics - NPTEL Swayam | AWS Cloud Practitioner Essentials - AWS Training and Certification | Power BI - SkillCourse
